ALLOYTEK

ARCHITECTURAL HARDWARE

About Alloytek

The foundation of Alloytek was laid by Dr. RC Garg, in 2000 under the registered name of Security Fittings. Headquartered in Aligarh, Uttar Pradesh, we design, manufacture and market European export quality architectural hardware. We also provide Original Equipment Manufacturing (OEM) support to major national and global brands, which is managed by our sister company, Universal Exports since 1976.

Our passion to combine quality and style with the desire to experiment and innovate gives us our distinctive status of a trustworthy market player. Offering a decade long warranty across our range, we are committed to provide our customers with robust service support and a promise of safety that lasts a lifetime. For us Made in Bharat is not just a certification - it's our pride, a mark of our grit to deliver quality and aesthetics.

Premium Architectural Hardware

Our contemporary range of architectural hardware has been designed keeping in mind the design sense of elite architects and modern habitats.

Blending high quality raw materials and European design standards, it offers fresh, lasting looks with exceptional durability.

Alloytek is the prestige of modern interiors and a reflection of our commitment to manufacture design's masterpieces.

Our products can be easily adapted and accessed by those who are looking for functionality and durability in the spaces they inhabit and are available in a variety of styles, colours and finishes

Design and R&D

Our prestigious architectural hardware is brought to you by a dynamic team of research scientists, product design specialists and design engineers.

They expertly address the contemporary design and other related requirements of an interior, and offer premium solutions built to enhance its beauty and security for the long term.

We use advanced design software like ProE and Solid Works for 3D designing and their subsequent practical analysis. For building prototypes, we use a CNC Prototype Making Machine and carry out tool designing on a Vertical Machining Centre (VMC).

We maintain in-house labs for testing spring cycle, salt spray, acetone rub, pencil, hardness etc. Our strong processing capacity assists us in conveniently meeting the OEM requirements of our clients, be it technical or aesthetic.

ALLOYTEK

ARCHITECTURAL HARDWARE

Manufacturing Process

We have two manufacturing centres situated in Aligarh, Uttar Pradesh. They house semi-automated production centres for manufacturing premium architectural hardware using high quality raw materials and advanced industry practices. At present, our manufacturing capacity is approximately 100 Tons (US) per month.

We ensure comprehensive QA (Quality Assurance) and QC (Quality Control) at multiple stages of production namely, Hot Forging, Zinc and Gravity Die Casting, Machining, Polishing, Plating, Anodising, Lacquering, Epoxy Coating and Packaging.

We use a combination of specialised tools and techniques namely SPC, limit samples, QC Alerts, periodic inspections, FMEA, PPAP, and finally a Pre Dispatch Inspection (PDI) right before shipping the goods.

ALLOYTEK

ARCHITECTURAL HARDWARE

Leadership

Dr. RC Garg laid the foundation of Universal Exports in 1976 and Security Fittings in 2000.

A visionary leader and an economist, he is our inspiration.

He is accompanied by his sons and engineers, Anurag and Rajat Garg, with specialization in Business Management.

We began exporting globally in the year 1976, starting with Australia.

Today, we have an extensive global network covering U.K., Europe, Scandinavian Countries, Asia and South Africa.

Global Reach

Certifications

Certifications Our Universal Exports products are ISO 9001, ISO 14000 and OHSAS 18000 certified our Security Fittings products are ISO 9001 certified.

ALLOYTEK

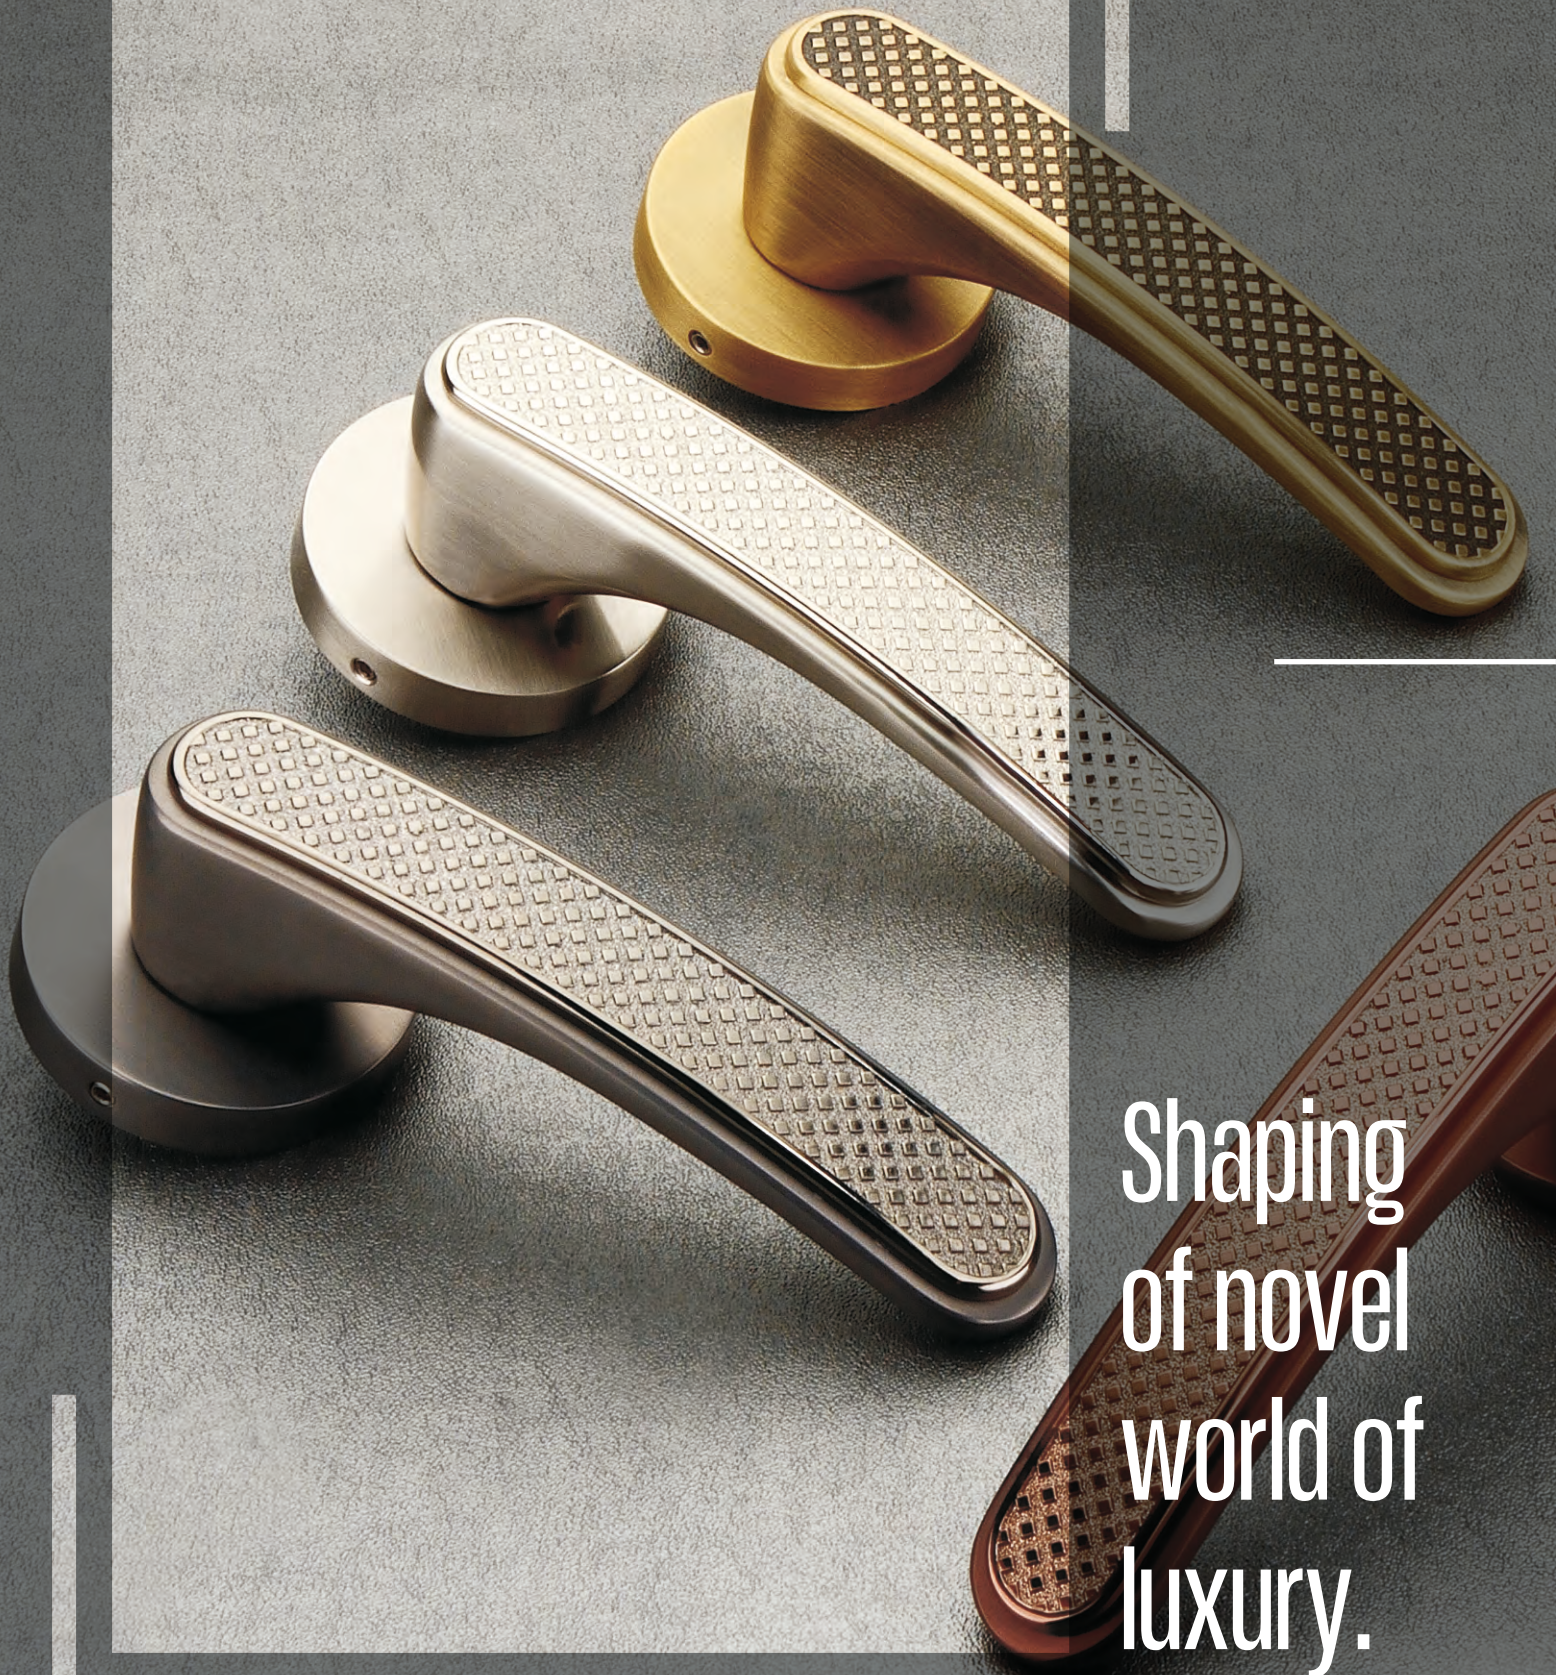

ARCHITECTURAL HARDWARE

Introduction

The foundation of Alloytek was laid by Dr. RC Garg, in 2000 under the registered name of Security Fitting. Headquartered in Aligarh, Uttar Pradesh. We design, manufacture and market European export quality architectural hardware comprising Mortise Handles & Locks, Pull Handles, Euro Profile Cylinders and Accessories including Door Knobs, Latches and Hooks. We also provide Original Equipment Manufacturing (OEM) support to major national and global brands, which is managed by our sister company, Universal Exports 1976.

Our contemporary range of aesthetically crafted marvels have been exclusively designed to suit the palette of elite architects and modern houses. Blending fine quality raw materials and European design standards, these are machined & finished with the help of state of art machines which offers robust & high-quality durable finish in varying shapes and sizes.

Our passion to combine quality and style with the desire to experiment and innovate gives us our distinctive status of trustworthy market player. Offering a 10-year long mechanical warranty across our range, we are committed to provide our customer with service support and a promise of safety that lasts a lifetime. For us Made in Bharat is not just a certification - it's our pride, a mark of our grit to deliver quality and aesthetics.
